MEMORANDUM FOR:

SUBJECT

: Loan of Two FR-114 Recorders and A, B-1, B-2 Racks to [REDACTED]

25X1A

1. By virtue of the withdrawal from [REDACTED] of the CIA Project for low-level intelligence collection with the use of P2V-7 aircraft, it is necessary to clarify the status of two FR-114 Recorders provided by CIA and now in use at [REDACTED] along with the A, B-1 and B-2 Racks which the Agency had scheduled to provide to [REDACTED] in connection with preliminary read-out in support of the P2V-7 Program.

2. CIA is prepared to leave the FR-114's and to ship the A, B-1 and B-2 Racks which are now available, provided there is agreement by the [REDACTED] to return these to the Agency should, in the future, some program arise which requires the use of these equipments by CIA.

3. Accordingly, this note is to request your concurrence in such a stipulation with the understanding that adequate notice means, in the case of FR-114's, at least 30 days since these are shelf items, and at least nine months in the case of the A, B-1 and B-2 Racks since these would have to be manufactured anew.
